

MANUFACTURING PROCESSES AND PRODUCTIVITY

JER 5S TRAINING

5S is more of a people process than it is a manufacturing technique. And it is much more than simply cleaning up your area – it is a discipline that truly can enable you and your organization to achieve greater results. You have access to this online course for 1 year but can complete it as quickly as you care to. We estimate that you could take up to 24 hours to complete this course but many students take much less time. (Contact Hours: 24)

Begins Anytime \$399

JER Introduction to ISO 9001:2000

ISO 9000 is increasingly becoming the standard for doing business. Organizations worldwide are implementing ISO 9000 Quality Management Systems. What is ISO 9001:2000 and what does it require? Learn to understand the requirements and apply the standard within an organization. The student has up to 1 year to access the training. However, it must be completed at one sitting; it cannot be saved and restarted later. (Contact Hours: 2)
